EuroSciCon takes the privilege to invite speakers, participants, students, delegates and exhibitors from across the globe to its premier **International Conference on Agriculture & Horticulture**, to be held during **August 12-13, 2020** in **Dublin, Ireland**. This revered conference will be focusing on the theme **“Exploring Advance Technologies in Agriculture and Horticulture”** EuroSciCon organize 3000+ Global Conference series Events inclusive of 600+ Conferences, 1200+ Workshops and 1200+ Symposiums Every Year across the USA, Europe & Asia with support from 1000 more scientific societies and 50000 eminent personalities.

Agriculture & Horticulture to be held in Dublin, Ireland with the theme of Exploring Advance Technologies in Agriculture and Horticulture. [AGRICULTURE 2020](#) is going to help the people who are directly or indirectly related to the Agriculture & Horticulture industry and academia. By this conference, people can share their views and ideas and can improve their knowledge about the advanced techniques to increase the productivity of the industries.

Scope and Importance:

Economic growth and industrialization of a nation are inextricably linked to the continuous availability, access, diversity and modernization of its agriculture sector. Agriculture, in fact, plays a vital function in whole goals and endeavors to attain fiscal development. A lot of the present day’s developed economies initially struggled to make their agricultural sector stronger. The states at a priority basis supply monetary help to their farmers, researchers and scientists with a plan to boost their agricultural inventions still further.

Agricultural science is among one of the best career options of a study and because of the lack of information and proper guidance, peoples usually under-estimate this field.

Each and the every requirements and need of creature including food, clothing and shelter are straightforwardly rewarded by agriculture.

A continuous research work is involving in this field to provide the maximum necessities to the ever-increasing population of the world. Essentially, the entire agricultural land expansion might be taken place in developing countries of the world. Consequently, the importance of agriculture to society impinges on our quality of life, food, nutrition, clothing and locality where peoples are living.

Agriculture & Horticulture invites a common platform for Deans, Directors, Professors, Students, Research scholars and other participants including CEO, Consultant, Head of Management, Economist, and Project Manager from business and industrial sectors across the world in order to establish a scientific relation between academic experts and other participants through information sharing and networking. Experts around the globe are going to meet on one platform of [AGRICULTURE 2020](#) to introduce advanced technologies and recent scientific explorations as well as future of agriculture and allied fields. Eminent speakers from all around the world are going to be united to introduce the most advanced researchers and technologies in Agriculture and other related fields. [AGRICULTURE 2020](#) also enables a chance to conduct a workshop, symposium and exhibition to emerge new possibilities in the Agricultural fields and other related sectors of agriculture. This conference will provide the sponsors for the practical demonstration, product promotion and make a connection with eminent persons and other customers to receive new business line for future marketing.
