

Awards 2020

Awards for Nursing Education 2020

Iven Klineberg

Professor, University of Sydney.

Email: iven.klineberg@sydney.edu.au

Accepted 22 December 2020

Supporting Journal: Journal of Medical Research & Health Education, Journal of Nursing Research and Practice, Journal of Health Policy and Management

Nursing Education 2020 will organize its academic conference which is a one-day or multi-day event during which researchers present their work to each other and stay connected to others in their field learning about several new things.

Nursing Education 2020 develops the avenue for the advanced rehabilitation in the field of nursing education and to develop transmission in the healthcare. Nursing Education 2020 includes several scientific sessions, symposiums and its poster presentation. It's a global platform to learn and discuss on Nursing Education and research and its related areas in midwifery, healthcare management, International Nursing Education and more based on Nursing Education and research.

These awards are given each year for the professionals for their participation in the conference every year. These awards are given to those who attend; based on

- Observations that will be made by the chair of the committee,
- The duration and the length of the presentation given by the particular speaker/student/Young Research Forum, and
- The quality of the Questionnaire round.

Best Organizing Committee Member Award

Organizing Committee Member holds a huge responsibility and role in the conference as they will be the Chair, Co-Chair for various sessions and also they present their talk for our event. Based on their role, participation, judging the other plenary talks and their presentation in the conference, we will be presenting the best Organizing Committee Member Award.

Best Keynote Speaker Award

The keynote talk will be given by our speakers for 45 Minutes under the various sessions that will be introduced by us. Based on their speech under a particular track, the best keynote speaker will be given an award.

Best Speaker Award

Nursing Education 2020 aims to give awards to the best talks, performers for their efforts as well for making a positive contribution to their field. Next year, Nursing Education 2020 will give out the 'Excellent Speaker Award' to the speakers who have given the best talks under any one of our Tracks. The award will be given to motivate our participants so that they would have their unique recognition.

Best Poster Presentation Award

Pulsus will organize the best Student Poster Competition in order to encourage students and recent graduates to present their original research which will be later published in the Allied Academies Journals. All the abstracts which are accepted will be presented at the poster sessions during the conference. This is a platform where your talk should match with our theme accordingly. Students who have attended our academic conferences surveyed their participation experience as "life-changing or positive"

Best Young Research Forum Award

Also, our Young research forums will receive the best award under YRF Category. Graduates, PhD Scholars, Students can present under this category and make recognition for themselves.

We look forward to your unique mind boggling oral, poster presentations for Nursing Education 2020.

Pulsus conferences takes an honour and pleasure in welcoming the participants for the 49th Global Nursing Science and Research, which is going to be held from September 21-22,2020 in San Francisco

We take an immense pleasure in introducing the new category "Young Research Forum" for the researchers involved in graduate education and research happenings that accentuate bearable progress.

The Young Research Forum is to help excellence in various fields of science and technology, especially for the researchers who are involved in the graduate education and research happenings.

The conference offers an excellent opportunity for the graduating students in exchanging the research knowledge and experiences with globe's famous delegates of Human genetics.

The Discussions on Nursing Education 2020 will be based on the following topics:

- Nursing Science and Nursing Care
- Nursing Practice and Research
- Nursing Education and Management
- Health and Healthcare
- Heart and Cardiac Nursing
- Oncology and Cancer Nursing
- Neurological Nursing

- Disaster Nursing
- Psychiatric Nursing
- Travel Nursing
- Public Health Nursing

Benefits of Young Research Forum:

Propelling flawlessness and seeing exceptional duties made by the young scientists for their work done basically during the range of study.

Find out about professional success and the latest research gadgets and advances in your field.

Graduates are propelled by the opportunity to pick neighbourhood or overall subjects of relevance/eagerness to them, and develop their own legitimate assessments and models attracting locally or all around.

PULSUS publicizes a top-level view of Awards for Young Scientists to assist excellence in varied fields of science and technology.

These Awards are known as "Young Scientist Awards".

The award is receptive to those analysers concerned in graduate education and research happenings that intensify bearable progress.

We, Pulsus conference organization are welcoming you to attend the 48th Global Congress on Nursing Education and Research to explore the about the nursing and its research and achievement in recent days, and to make the conference successful.

Nursing Education Conference guarantees to be exciting, with a variety of displays together with topics associated with Psychiatric-Mental Health, medical specialty and Cancer Nursing, important Care and cardiac Care, Emergency Nursing, Public Health, and Environmental Health Nursing. Besides, Clinical Nursing, Nursing Education, and Nursing research will be well-represented.

Lastly, there'll be shows that cover the lifetime from paediatric, to obstetric, to Adult Health Nursing, all covering data that's new and relevant to nursing care and healthcare.

We want to take this opportunity to encourage your attendance and participation in this unique Nursing Congress to take advantage of the most recent scientific discoveries and milestones in the field of Nursing and Healthcare.
