

Past Conference Report

Past Conference Report - Novel Trends and Innovations in genetics and molecular biology for Making Life Better

Dr. Olivier Grenet,

Head Research, Pre-Clinical and Lab,

Switzerland, Email: olivier.grenet@novartis.com

Accepted 23 March, 2021

Past Conference Report

Thanks to all of our marvellous speakers and conference attendees for making the conference a grand success.

The International Conference on [Cell and Gene Therapy](#) was hosted by the Conference Series on November 26-27, 2019 at Lisbon, Portugal with the theme "Exploring the Advancements in cell and gene therapy ". Benevolent response and active participation was received from the scientists, engineers, researchers, students and leaders from the fields of [genomics](#) and genetic Engineering, who created this event victorious.

The [conference](#) was took place with many multiple sessions, workshops, panel discussions, Keynote shows, and Poster sessions. We received an active participation from scientists, young and sensible researchers, business delegates and gifted student communities representing over different countries which have driven this event into the trail of success.

Response was recorded from active participation and generous received from the Organizing Committee Members, scientists, researchers, furthermore as specialists from Non-government organizations, and students from numerous teams who created this conference united of the foremost prosperous and productive events in 2019 from [Conference Series llc LTD.](#)

We had also received an active participation from young and sensible researchers, scientists, business delegates and gifted student communities representing from different countries who have driven this event into the trail of success.

It had been a duty bound to varied company representatives delegate specialists, and different eminent personalities supported the conference by facilitating active discussion forums. We would like to give sincere thanks to Organizing Committee Members the gracious presence, support, and help towards the success of Cell gene therapy 2019 conference.

Our organizing committee would like to give a special thanks to our moderator Gheorghita Menghiu from West University of Timisoara who put the esteemed effort for smooth running of conference.

The meeting was distributed through numerous sessions, during which the discussions were persevered the subsequent major scientific tracks:

- Nanotherapy
- Advanced Gene Therapeutics
- Clinical Trials on Cell & Gene Therapy
- Gene Therapy
- Cell Therapy
- Immunotherapy
- Biomarkers
- Stem Cell in Gene Therapy
- Genomics

- Tissue Science and Regenerative Medicine
- Viral Gene Therapy
- Epigenetics
- Proteomics
- Genome Editing

The conference was initiated with a series of lectures delivered by both Honourable Guests and members of the Keynote forum .The list included:

- Clelia Rejane Antonio Bertoncini, University of São Paulo, Brazil
- Alex M Mawla, University of California, USA
- Iftikhar Qayum, Rehman Medical Institute, Pakistan
- Joanne D. Caguiat, Philippine Rice Research Institute, Philippines
- Leen Abu Safieh, King Fahad Medical City Research Cente, Saudi Arabia
- Isaac Adeyemi Adeleye, University of Lagos, Nigeria

Conference Series Ltd offers its heartfelt appreciation to Organizing Committee Members; adepts of field, various outside experts, company representatives and other eminent personalities who supported the conference by facilitating the [discussion forums](#) .Conference Series also took privilege to felicitate the Organizing Committee Members who supported this event.

With the grand success of Cell gene therapy 2019, Conference Series Ltd is proud to announce the "2nd International Conference on Cell and gene therapy" scheduled during June 22-23, 2020 at Paris, France.
